AI & GenAI Developer | LangChain • FastAPI • Multi-Agent Systems • RAG

EDUCATION

Master of Computer Applications(MCA)

April 2026

Bhadrak Autonomous College, Odisha, India

Latest SGPA: 8.67

Relevant Coursework: Machine Learning, AI Systems Design, Data Structures, Advanced Algorithms

SKILLS

Core Languages: Python, SQL, HTML, CSS

AI/ML Stack: Generative AI, Agentic AI, RAG, LLMs

Frameworks & Libraries: FastAPI, LangChain, LangGraph, CrewAI, Pandas, NumPy, Scikit-Learn, Matplotlib

Vector Database & Tools: ChromaDB, Pinecone, n8n, Docker, Ollama, Supabase

Backend & Infrastructure: REST APIs, Celery, Redis, Git/GitHub

Soft Skills: Excellent Communication, Problem Solving, Teamwork, Time Management

WORK EXPERIENCE

Gen AI Developer Intern - INFOTACT Solutions

Mar 2026 – Jun 2026

- **Multi-Agent Systems:** Engineered agentic AI document evaluation system using LangGraph and CrewAI that processed 500+ documents, reducing manual review turnaround by 60% while maintaining 94% accuracy on automated feedback generation.
- **RAG Pipeline Development:** Built Pinecone-backed retrieval system with SQL-based metadata filtering that improved chatbot context relevance from 65% to 91%, enabling real-time support for 2,000+ daily customer queries.
- **Production Backend:** Developed full-stack content generation API with FastAPI, Celery async task queuing, and Redis caching that scaled automated copy production 4x (from 20 to 80 pieces/day) while reducing cost-per-request 35%.

Web Designing and Frontend QA, Techwebster, Remote

Feb 2026 – Present

- Conducted quality assurance testing to identify and resolve design issues, enhancing overall design integrity.
- Collaborated with designers to create user-friendly web layouts.

PROJECTS

Multi-Agent AI Document Evaluation Platform — LangGraph • CrewAI • Pinecone [LINK](#)

Engineered intelligent multi-agent workflow analysing 500+ documents with 94% accuracy. Reduced review time 60%.

Generative AI Marketing Content Engine — FastAPI • OpenAI • LangGraph • Celery • Redis [LINK](#)

LLM-powered platform for automated marketing copy, social captions, and campaign content. Scaled output production 4x through async task optimization and cost tracking.

RAG-Based Intelligent AI Chatbot — LangChain • Pinecone • FastAPI • SQL [LINK](#)

Domain-specific chatbot with semantic search and SQL metadata filtering. Improved context accuracy from 65% to 91%. Supports 2,000+ daily queries.

TRAINING

Naresh I Technologies, Hyderabad — Python with Generative AI & Agentic AI 2026

- Advanced training in LLMs, RAG systems, Prompt Engineering, and production AI development patterns.

ACHIEVEMENTS

Sports Volunteer Leader 2025

- Led and coordinated student volunteers during college sports events and activities.
- Managed event planning, participant coordination, and team communication effectively.
- Demonstrated leadership, teamwork, and organizational skills in conducting successful sports programs.
