

Subhasree Sahoo

Bengaluru, India | subhasreesahoo12@gmail.com | +91 7735319201 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

EDUCATION

Master of Computer Applications (MCA)

Completed April 2026

Bhadrak Autonomous College, Odisha, CGPA: 8.50/10.0

Relevant coursework: Machine Learning · AI Systems Design · Data Structures · Advanced Algorithms

WORK EXPERIENCE

Gen AI Developer (Internship) — INFOTACT Solutions

Mar 2026 – Jun 2026

Bengaluru, India

[Certificate](#)

- Built and deployed a multi-agent AI document evaluation system at 94% accuracy, cutting manual review time by 60%.
- Engineered a RAG pipeline improving chatbot relevance from 65% to 91% for 2,000+ daily queries, while cutting LLM inference costs by 35%.

Web QA & Frontend Developer (Internship) — Techwebster

Feb 2026 – Present

Remote

- Cut UI defect escape rate by 40% and delivered 3 client projects with zero post-launch rework via systematic QA testing and component-based HTML/CSS development.

PROJECTS

Multi-Agent Document Evaluation Platform · LangGraph · CrewAI · Docker · FastAPI

[Github](#)

- Built a 4-agent pipeline (extractor → analyzer → scorer → formatter) with Pinecone retrieval and Pydantic validation, deployed on GCP Cloud Run.
- Achieved 94% automated feedback accuracy across 500+ documents, cutting turnaround time by 60%

Generative AI Marketing Content Engine · FastAPI · OpenAI · LangGraph · Celery · Redis

[Github](#)

- Built an async LLM pipeline for marketing copy and campaign content with cost tracking and rate-limiting via Celery + Redis.
- Boosted content output 4x with a real-time cost tracking dashboard, deployed via FastAPI.

RAG-Based Intelligent AI Chatbot · LangChain · Pinecone · FastAPI · SQL

[Github](#)

- Built a domain-specific RAG system using semantic chunking, SQL metadata filtering, and prompt engineering templates.
- Lifted context accuracy from 65% to 91%, supporting 2,000+ daily production queries.

SKILLS

Languages: Python · JavaScript · HTML/CSS · SQL

Frameworks & Libraries: LangChain · LangGraph · CrewAI · AutoGen · Pydantic · FastAPI · Flask · Scikit-learn · XGBoost · TensorFlow · Keras · NLTK · OpenCV

Tools & Platforms: Docker · Git/GitHub · GCP Cloud Run · CI/CD (GitHub Actions) · Celery · Redis · Streamlit · n8n · MCP Server

Models & Vectors: Pinecone · ChromaDB · OpenAI · Ollama · Llama 3 · Groq · Hugging Face · Mistral

TRAINING

- Python with Generative AI & Agentic AI - Naresh I Technologies, Hyderabad, 2026
